

**John Williams** became involved with scholarship programs through his rotary club. In 2017 he was invited to become a Trustee of the Enhanced Scholarship Trust. From that time has been working on promotion and the recruitment of scholarship applicants.

John was born in London, England. In 1979 he emigrated to the US after being recruited by GE Aviation and became an American citizen ten years later. John retired in 2014 with the title of Principal Engineer after 45+ years in the aerospace industry.

John is married to Ann. They enjoy good friends, good food and travel. John's particular interests are following Formula One motorsport and anything mechanical. He is an active member of Rotary International and a past president of his club.
